# Africa Forum 2019 Development Cooperation: Africa and the Agenda 2030

Friday, 18 October 2019, 2:00pm–5:30pm

# Africa Forum 2019

## Development Cooperation: Africa and the Agenda 2030

The forum will critically engage with different approaches to development and discuss discourses and structural conditions that frame development cooperation. A particular focus is on the Sustainable Development Goals (SDGs) of the UN's Agenda 2030, currently the most important international development framework.

Specific projects and organisations will serve as cases to take a close look at how development cooperation works with regards to three dimensions: gender, religion and sustainability. The presentations will be followed by a round table discussion with all speakers.
