'Of Smoke and Ash', curated by Dr Duane Jethro and Jade Nair, opened on 19 April 2022, a day from the one-year mark of the fire that spread across the Table Mountain and to the UCT Campus.

The exhibition memorialises the loss of the Jagger Library and its archives and celebrates the librarians and volunteers who participated in the salvage operations that followed.

The Centre for African Studies and eikones invite the curators to reflect on the exhibition and discuss questions about curation, commemoration and creative practices in African Studies.
