

CONVERSATION

# Circulating things

Wednesday, October 4, 2023, 18.00

In a conversation with curators and researchers based in Basel we will explore the presence and agency of things. The focus is on the contexts of their making and migration, their roles as mediators between different worlds, their changing functions and meanings along their ways. We follow their traces and impact in current debates on decolonization and restitution from different perspectives.

With:

Elisa da Costa, initiator podcast «Blackfluencers» and co-curator «Deal with it»

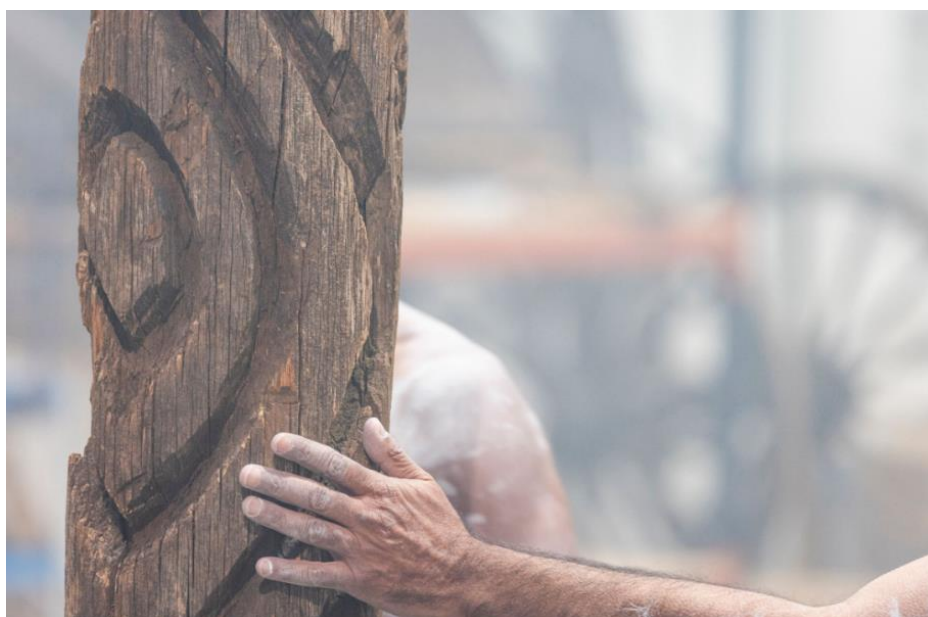

Marilyn Umurungi, curator, art and culture researcher

Zainabu Jallo, postdoctoral researcher and lecturer in anthropology

Ursula Regehr, Africa curator Museum der Kulturen Basel

Moderator: Henri-Michel Yéré, lecturer, poet and board member Culturescapes

**Students from the University of Basel receive free admission to the event.**
